

# ALICE IN ALACHUA COUNTY

## 2022 Point-in-Time Data

**Population:** 284,030 • **Number of Households:** 116,507  
**Median Household Income:** \$58,354 (state average: \$69,303)  
**Labor Force Participation Rate:** 58.6% (state average: 59.6%)  
**ALICE Households:** 31% (state average: 33%) • **Households in Poverty:** 20% (state average: 13%)

## Financial Hardship Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 58,914 households (51%) were below the ALICE Threshold in Alachua County.

## Households by Income, Alachua County, 2010–2022

Note: See an interactive version of this data at [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida)

Sources: ALICE Threshold, 2010–2022; American Community Survey, 2010–2022

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Alachua County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Alachua County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

## Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 2,667 households (60%) were below the ALICE Threshold in Calhoun County.

## Households by Income, Calhoun County, 2010–2022

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Calhoun County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Calhoun County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

# ALICE IN DIXIE COUNTY

## 2022 Point-in-Time Data

**Population:** 16,737 • **Number of Households:** 6,164  
**Median Household Income:** \$45,057 (state average: \$69,303)  
**Labor Force Participation Rate:** 40.6% (state average: 59.6%)  
**ALICE Households:** 48% (state average: 33%) • **Households in Poverty:** 16% (state average: 13%)

## Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 3,954 households (64%) were below the ALICE Threshold in Dixie County.

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

## Household Financial Status by Household Type, Gadsden County, 2022

Sources: ALICE Threshold, 2022; American Community Survey, 2022

## Household Financial Status by Race/Ethnicity, Gadsden County, 2022

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

# ALICE IN GILCHRIST COUNTY

## 2022 Point-in-Time Data

**Population:** 18,070 • **Number of Households:** 6,872  
**Median Household Income:** \$56,823 (state average: \$69,303)  
**Labor Force Participation Rate:** 52.3% (state average: 59.6%)  
**ALICE Households:** 36% (state average: 33%) • **Households in Poverty:** 15% (state average: 13%)

## Financial Hardship Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 3,517 households (51%) were below the ALICE Threshold in Gilchrist County.

## Households by Income, Gilchrist County, 2010–2022

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Gilchrist County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Gilchrist County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

**Median Household Income:** \$61,462 (state average: \$69,303)  
**Labor Force Participation Rate:** 51.2% (state average: 59.6%)  
**ALICE Households:** 38% (state average: 33%) • **Households in Poverty:** 13% (state average: 13%)

## Financial Hardship Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 41,265 households (51%) were below the ALICE Threshold in Hernando County.

## Households by Income, Hernando County, 2010–2022

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Hernando County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Hernando County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Jefferson County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Jefferson County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Liberty County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

# ALICE IN MADISON COUNTY

## 2022 Point-in-Time Data

**Population:** 17,986 • **Number of Households:** 6,693  
**Median Household Income:** \$43,386 (state average: \$69,303)  
**Labor Force Participation Rate:** 42.4% (state average: 59.6%)  
**ALICE Households:** 40% (state average: 33%) • **Households in Poverty:** 20% (state average: 13%)

## Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 4,054 households (61%) were below the ALICE Threshold in Madison County.

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

## Household Financial Status by Household Type, Monroe County, 2022

Sources: ALICE Threshold, 2022; American Community Survey, 2022

## Household Financial Status by Race/Ethnicity, Monroe County, 2022

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

# ALICE IN NASSAU COUNTY

## 2022 Point-in-Time Data

**Population:** 97,899 • **Number of Households:** 41,347  
**Median Household Income:** \$90,883 (state average: \$69,303)  
**Labor Force Participation Rate:** 59.2% (state average: 59.6%)  
**ALICE Households:** 24% (state average: 33%) • **Households in Poverty:** 6% (state average: 13%)

## Financial Hardship Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 12,660 households (31%) were below the ALICE Threshold in Nassau County.

## Households by Income, Nassau County, 2010–2022

 Sources: ALICE Threshold, 2010–2022; American Community Survey, 2010–2022

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Nassau County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

## 2022 Point-in-Time Data

**Population:** 608,794 • **Number of Households:** 240,785  
**Median Household Income:** \$65,999 (state average: \$69,303)  
**Labor Force Participation Rate:** 57.5% (state average: 59.6%)  
**ALICE Households:** 37% (state average: 33%) • **Households in Poverty:** 11% (state average: 13%)

## Financial Hardship Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 115,203 households (48%) were below the ALICE Threshold in Pasco County.

## Households by Income, Pasco County, 2010–2022

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Pasco County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

## Household Financial Status by Household Type, St. Lucie County, 2022

Sources: ALICE Threshold, 2022; American Community Survey, 2022

## Household Financial Status by Race/Ethnicity, St. Lucie County, 2022

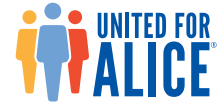

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

# ALICE IN SANTA ROSA COUNTY

## 2022 Point-in-Time Data

**Population:** 198,268 • **Number of Households:** 73,545  
**Median Household Income:** \$83,672 (state average: \$69,303)  
**Labor Force Participation Rate:** 62.7% (state average: 59.6%)  
**ALICE Households:** 26% (state average: 33%) • **Households in Poverty:** 11% (state average: 13%)

## Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 27,444 households (37%) were below the ALICE Threshold in Santa Rosa County.

## Households by Income, Santa Rosa County, 2010–2022

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Santa Rosa County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Santa Rosa County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Perry South CCD	2,049	65%

## Household Financial Status by Household Type, Taylor County, 2022

Sources: ALICE Threshold, 2022; American Community Survey, 2022

## Household Financial Status by Race/Ethnicity, Taylor County, 2022

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

Sources: ALICE Threshold, 2022; American Community Survey, 2022

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Data for counties with populations over 65,000 is 1-year estimates. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.

## 2022 Point-in-Time Data

**Population:** 15,524 • **Number of Households:** 4,094  
**Median Household Income:** \$64,043 (state average: \$69,303)  
**Labor Force Participation Rate:** 35.3% (state average: 59.6%)  
**ALICE Households:** 29% (state average: 33%) • **Households in Poverty:** 14% (state average: 13%)

## Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 1,758 households (43%) were below the ALICE Threshold in Union County.

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Union County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Union County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)
